PAVAN PAVITHRAN

SOC Analyst | Entry-Level

Mobile: +971 52 760 7194 | **Email:** pavanpavithran44@gmail.com
LinkedIn: https://www.linkedin.com/in/pavan-pavithran
Location: Sharjah, UAE | **Date of Birth:** 12 September 2002 | **Nationality:** Indian
Open to Relocation: Bengaluru, India (October 2026)

SUMMARY

Entry-level cybersecurity professional certified in CompTIA Security+ and EC-Council Certified Ethical Hacker (CEHv13) with a BSc in Engineering Physics and internship experience in security operations and offensive security. Practical exposure to Wazuh SIEM monitoring, incident triage, penetration testing, Python scripting and technical reporting, supported by 150+ completed security labs and CTF challenges. Seeking SOC Analyst L1 opportunities

INTERNSHIP EXPERIENCE

RedTeam Intern | Cyber50 Defense | Dubai, UAE *July 2026 – August 2026*

- Completed hands-on training in web, network and cloud security, applying structured penetration testing workflows from reconnaissance and enumeration to exploitation and reporting.
- Performed guided vulnerability identification and exploitation exercises through TryHackMe and PortSwigger Web Security Academy, documenting findings and proof-of-concept evidence.

Cybersecurity Intern | RedTeam Hacker Academy | Dubai, UAE *May 2025 – June 2025*

- Monitored and investigated Splunk security alerts, performing initial incident triage, security event analysis and suspicious activity investigation.
- Conducted vulnerability assessments and penetration tests using Nessus, Burp Suite and Nmap, identifying critical and high-severity vulnerabilities and preparing technical reports covering impact, exploitation and remediation recommendations.

CYBERSECURITY PROJECTS & LABS

Wazuh SIEM Deployment and SOC Home Lab *drpaps.github.io/projects*

- Deployed a Wazuh SIEM server and onboarded an Ubuntu endpoint with agent connectivity.
- Built a multi-VM Security lab with Kali Linux to generate controlled attack activity and investigate alerts through Wazuh dashboard.

Vulnerability Assessment and Penetration Test – Earth (VulnHub) *drpaps.github.io/reports*

- Conducted VulnHub Earth penetration testing, achieving remote code execution and root access.
- Authored a 23-page report detailing 6 vulnerabilities, impact analysis and remediation.

Python Web Reconnaissance & CTF Enumeration Utility *drpaps.github.io/projects*

- Built a Python command-line tool to automate web reconnaissance and CTF enumeration.
- Automated banner grabbing, SearchSploit lookups, directory fuzzing and wildcard calibration.

Security Labs & Capture The Flag Competitions *drpaps.github.io/writeups*

- Completed 150+ labs and CTFs covering SOC simulations, web security and privilege escalation.
- Placed 15th in an international CTF competition hosted by Beagle Security.

TECHNICAL SKILLS

- **Security Operations & Testing:** SOC Fundamentals | Security Information and Event Management (SIEM) | Vulnerability Assessment and Penetration Testing (VAPT) | Web Application Security | Reconnaissance and Enumeration
- **Security Tools:** Wazuh SIEM | Nessus | Burp Suite | Metasploit | Nmap | sqlmap | Wireshark | Gobuster | CyberChef | John the Ripper | Netcat | SearchSploit
- **Systems & Networking:** Linux and Windows Security Fundamentals | Cloud and Active Directory Security Fundamentals | Network Security | TCP/IP | DNS | HTTP/HTTPS | VPNs | Firewalls | Proxies
- **Programming & Scripting:** Python | Bash | Java | C++ | JavaScript
- **Frameworks & Standards:** OWASP Top 10 | Common Weakness Enumeration (CWE) | MITRE ATT&CK
- **Practice Platforms:** TryHackMe | PortSwigger Web Security Academy | VulnHub

EDUCATION

Bachelor of Science in Engineering Physics *December 2025*
University of Illinois Urbana Champaign | Illinois, USA | *Specialization: Computational Physics*

CERTIFICATIONS

Certified Ethical Hacker (CEHv13) | EC-Council *June 2025*
Security+ (SY0-701) | CompTIA *Oct 2026*
